Terms and Conditions of Sale

BUYER'S CHARGE

A buyer's charge equal to 10% of the final bid realized will be added to each lot. THIS BUYER' S CHARGE WILL BE ADDED TO ALL INVOICES.

BIDDING AT AUCTION

THE HIGHEST BIDDER wins each lot. SALES TO THE FLOOR ARE FINAL. Lots will be awarded at a slight advance over the next highest bid. Bidding will begin slightly above the second highest mail bid. If the auctioneer recognizes no other bids from the floor, the highest mail bidder is awarded the lot at the opening bid. If bidding proceeds from the floor, McINTIRE NUMISMATIC AUCTIONS will act as agent for the mail bidder until he is successful or the next bid is higher than the maximum bid set by the mail bidder. If there are identical mail bids, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid and a floor bidder must bid higher than the highest mail bid to be awarded any lot. In the event of any dispute involving a bid, the decision of the auctioneer is final. No "Unlimited" or "Buy" bids will be executed. McINTIRE NUMISMATIC AUCTIONS reserves the right to reject any bid that we believe has not been submitted in good faith. We also reserve the right to withdraw any lot at any time.

BIDDING BY MAIL

Mail bidders should read "For Successful Mail Bidding" on page III. Bids will be entered only in whole dollar amounts. **ALL BID SHEETS MUST BE SIGNED**, including company bids by a principal. Check your bid sheet carefully as we cannot be responsible for errors.

Bidders unknown to us or who have not established credit with McINTIRE NUMISMATIC AUCTIONS should furnish a deposit of 25% of their total bids. The deposit will be applied to successful bids or promptly refunded after the sale.

Postage, insurance and sales tax, if required by law to be collected, will be added to the invoice or any lots that are shipped to successful bidders. Overseas buyers must furnish their own insurance during shipment. (See Return Privileges section for additional, related information.)

No bids can be accepted from persons under 18 years of age.

MONEY MATTERS

All sales are strictly for CASH with payment in U.S. funds due immediately upon receipt of invoice. Late remittance will be subject to an interest charge assessed at local maximum current allowable rates.

If bidders wish to establish credit with McINTIRE NUMSIMATIC AUCTIONS, arrangements must be made prior to the sale.

Sales tax, as required by law to be collected, is the responsibility of successful bidders unless a valid resale certificate is presented or is on file with our company. Postage and insurance will be added to lots shipped.

Title to any lot remains with consignor. McINTIRE NUMISMATIC AUCTIONS INC. acts as agents for the consignor, until the lot is paid for in full. However, it is the responsibility of the buyer to provide adequate insurance coverage once any lot is in his possession. Risk of loss is with the buyer.

In the event a bidder fails to make remittance promptly, McINTIRE NUMISMATIC AUCTIONS INC. reserves the right to resell the merchandise and the bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.

Return Privileges

AUCTION SALES ARE NOT APPROVAL SALES.

FLOOR BIDDERS OR MAIL BIDDERS who have examined the lot, including those acting as agents for others MAY NOT RETURN LOTS FOR ANY REASON. **All sales to the floor are final.**

MAIL BIDDERS may return lots only for reasons of authenticity or errors in the catalog. In order to preserve your return privilege, you as a mail bidder must follow the TERMS OF SALE. Invoices are due upon receipt and must be paid promptly so that you may receive your lots and still have time to comply with the deadline for returns. In the unlikely event you return a lot, McIntire Numismatic Auctions must be notified of your intent within three days of your receipt of the lot. Any lot that is to be returned must be received in our offices within 30 days from the date of sale. Therefore, LATE REMITTANCE WILL NEGATE YOUR RETURN PRIVILEGE. If a Lot is to be returned it must be housed in its original, completely intact, sealed holder. NO RETURNS OR CLAIMS OF ANY KIND WILL BE CONSIDERED AFTER SETTLEMENT IS MADE WITH THE CONSIGNOR. Since McIntire Numismatic Auctions, Inc. acts only as agents for various consignors, any dispute that arises after the settlement date is strictly between the bidder and consignor, without involvement or responsibility of McIntire Numismatic Auctions, Inc. and/or the cataloger. In any event, our ultimate liability is the price paid.

Questions regarding the minting of a coin as a proof or business strike relate to the method of manufacture and not to authenticity.

Bidding in this sale constitutes acceptance by the bidder of all the foregoing terms and conditions of sale.

For Successful Mail Bidding

Bidding by mail is an enjoyable and interesting experience. It can also be very rewarding if you are a successful bidder. We have been long time mail bidders and over the years have developed some guidelines that may be useful to both the experienced bidder and "rookie" alike.

1. READ THE TERMS OF SALE in front of the catalog. These terms spell out the legal obligation you incur when you submit a bid sheet.

2. FOLLOW THE TERMS OF SALE. If you have not established credit, send your references and/or a 25% deposit.

3. MAIL YOUR BID SHEET EARLY. That allows us time to check your references and to insure that your bids will be entered.

4. DO NOT BID MORE FOR A LOT THAN YOU WANT TO PAY because you are legally bound to pay for the lots awarded to you. A 10% buyer's charge will be added to the final bid for each lot.

5. REMEMBER AUCTION INVOICES ARE DUE UPON RECEIPT. Be prepared to pay in full for all of your successful bids.

Now that we've stressed the important things in the eyes of McIntire Numismatic Auctions, let us offer some other suggestions to help you prepare your bids.

Read through the catalog with a sheet of paper at hand, listing and making notes on those lots of interest to you. You then can use this work sheet to research the coins, determine their market price, and decide upon your bid.

Speaking of market price, please keep it in mind when you place your bids. It usually takes a realistic bid within current market ranges to be successful. There is no harm in bargain hunting but the chance of winning coins is greatly reduced. If you want or need a particular lot, recognize current market values and bid accordingly.

If you have questions about estimated values we are as near as the telephone. Please call us.
Now that you have determined your bids, complete the informational sections of the MAIL BID SHEET.
Be certain to include your phone numbers. We can then call you if there is any question about a bid.
LIST YOUR REFERENCES.
Enter your bids. Keeping them in numerical order helps us.
Sign your bid sheet. Without your signature we cannot enter your bids.
Check your bid sheet carefully. We are not responsible for your errors.
Should you wish to sell your numismatic holdings by auction please call us (501) 372-1391.

Grading

The U.S. coins in this sale are all graded in accordance with the standards established in the *American Numismatic Association Grading Guide*. The quantitative, numerical grade is used in conjunction with the traditional letter grade in order to best describe the condition of the coin.

Poor	- 1	Very Fine	- 20, 25, 30, 35
Fair	- 2	Extremely Fine	- 40 & 45
About Good	- 3	Almost Uncirculated	- 50 & 55
Good	- 4 & 6	Mint State	- 60, 63, 65, 67 & 70
Very Good	- 8 & 10	Proof	- 60, 63, 65, 67 & 70
Fine	- 12 & 15		

Grading, however, is not a science. The grades herein represent our best, experienced opinion and it is possible that two people will not always grade the same item alike. Your examination should be the basis upon which you ultimately determine an item's value. After all, in any sale, any item's value is solely determined by its price.
Coins graded by ANACS are catalogued at these assigned grades.

All photographs in this catalog are of the actual item to be sold.

First Session

HALF CENTS

1 **1773 VIRGINIA HALFPENNY period after GEORGIUS MINT STATE-63.** Mint brilliance around letters, head and hair details of the obverse and over most of the reverse. The fields are turning iridescent. No spotting. Likely from the Col. Mendes Cohen hoard, as an original keg of about 2500 pieces turned up about 1861 and was purchased by that Baltimore numismatist. Most of the uncirculated specimens trace their pedigree to this hoard, now very widely dispersed. The Virginia halfpenny was struck at the Tower Mint in 1773. A total of 672,000 were minted and they arrived in Virginia colony in February, 1774. However, the Colonial Treasurer refused to release them for circulation until late 1774. With revolution brewing, a coin bearing a portrait of George III probably did not circulate until the 1780's. A lovely piece of history with past auction sales in the $1000 — $1400 range. (PHOTO)

2 **1793 FINE/EXTREMELY FINE.** Obverse is much less worn than reverse, but the planchet is a little rough and dark. The date is complete as is the lettering. The reverse is sharp and complete. A desirable example of the initial year of America's coinage. (PHOTO)

3 **1828 13 Stars MINT STATE-60.** Chocolate brown lustre. (PHOTO)

4 **1833 EXTREMELY FINE-40**

5 **1846 Second Restrike PROOF-63** or Better. An exceptional coin. The obverse displays a striking two-toned cameo effect with the wide flat borders and head of Liberty being full, frosty mint red. The fields show a slightly darker tint. The reverse is a rich brown. No hairlines, although there is an area in the upper right quadrant of the obverse which shows some evidence of die polishing striations. One small spot is visible between the 6th star and the denticles. An exceedingly rare coin with possibly as few as twelve known examples of the restrikes. Proof half cents of the 1840's are divided into three classifications, all of which are exceedingly rare. Originals, with large berries in the reverse wreath, First Restrikes, with small berries in the reverse wreath and NT of CENT and the ribbon recut. These are believed to have been produced by the Philadelphia Mint between 1858 & 1860 and Second Restrikes, with small berries in the wreath and parallel diagonal die striations on the reverse field above RICA of AMERICA, thought to have been struck between 1867 & 1869. (PHOTO)

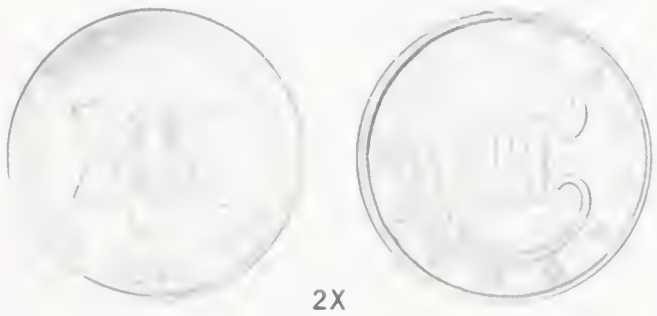
THREE CENT PIECES (SILVER)



2X

132 **1852 Variety 1** **MINT STATE-65.** Fully struck with good, brilliant luster. Some light planchet porosity through STATES. No evidence of die clashing. A choice, and as such scarce, example of America's only silver coin to contain less than 90 per cent silver. (PHOTO)

133 **1858 Variety 2** **ALMOST UNCIRCULATED-50.** Struck from clashed, repolished and bulging dies. Nevertheless, this coin does not suffer from the usual peripheral weakness most Variety 2's exhibit.

134 **1859 Variety 3** **MINT STATE-63.** Attractively toned with some iridescence, especially the reverse center.

135 **1871** **PROOF-60.** Lightly toned and hairlined.

THREE CENT PIECES (NICKEL)

136 **1867** **MINT STATE-65.** Mostly lustrous with just a hint of light golden toning. Well struck with fully detailed III's. A reverse cud near 3:00 that extends into the wreath is a reminder of the difficulty the mint had in coining nickel.

137 **1872** **MINT STATE-67.** Light natural gray obverse toning. (PHOTO)

138 **1873 Closed 3** **PROOF-65.** Deep, reflective fields with lightly frosted devices. Flashy. (PHOTO)

142 **1887** **PROOF-67.** Light gray natural toning over deep reflective fields. (PHOTO)

143 **1887** **MINT STATE-67.** Fully lustrous and well struck. Some weakness in the obverse denticles. A flashy and very rare business strike. (PHOTO)

LIBERTY SEATED HALF DIMES

2X

150 1837 No Stars, Small Date **MINT STATE-67.** A splendid fully struck pristine example of Christian Gobrecht's design. A very scarce two year type coin as the No Stars format was used at the Philadelphia Mint in 1837 and at the New Orleans Mint in 1838. Full frosty luster is covered by rich, russet toning on the obverse with the reverse displaying slightly more iridescence. A top quality scarce type coin. (PHOTO)

2X

151 1838 No Drapery **MINT STATE-63.** A superb full strike with full stars and hair detail and full wreath detail on the reverse. Brilliant mint luster with rich, golden toning spreading from the edges toward the center. Light die polishing striations visible in the obverse fields. Overall, an extremely attractive example of this scarce, distinct variety. (PHOTO)

2X

152 1853 Arrows **MINT STATE-60.** Lustrous with just a hint of toning. Struck from heavily clashed dies. (PHOTO)

153 1861 **ALMOST UNCIRCULATED-50.** Dipped at one time but now showing attractive crescent shaped golden toning on both the obverse and reverse.

154 1862 **MINT STATE-60.** Boldly struck from heavily clashed dies. Both obverse and reverse show heavy striations from repolished dies. Light iridescent peripheral toning on the obverse.

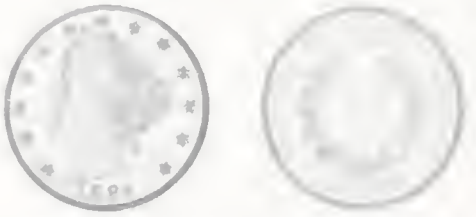
159 1883 **MINT STATE-65.** A simply superb shield nickel. Fully struck with no die cracks on the obverse. Repunched motto and date. Every star radial is full on the reverse. Pristine, lustrous surfaces. Toned an attractive russet. (PHOTO)

LIBERTY NICKELS



160 1884 **PROOF-67.** Blazing luster with some frosting on the devices. Flashy and eye catching. (PHOTO)

161 1885 **GOOD-4.** Full, strong obverse rims. No damage or discoloration, just wear. Key date.

162 1885 **GOOD-4.** Details of Very Good or better but the fields are dark and granular. Still a very acceptable example of the rarest of the regular issue V-nickels.

25.00

163 1885 **ALMOST GOOD-3.** The obverse has full rims and is good or better. The reverse is about good and discolored. Still better than a filler.

164 1900 **PROOF-65** Wholly original. Virtually spotless and free of hairlines.

165 1900 **MINT STATE-63** Fine strike. Light golden toning. Only a few light marks and flecks can be seen under magnification. Very desirable.

166 1908 **MINT STATE-63** Lovely, light, pinkish toning on both obverse and reverse. Only a few light marks on the head keep this from a finer grade.

167 1910 **MINT STATE-63** Fine luster and pristine surfaces. Lovely olive green, gold and rose toning. Two small carbon spots on the coin keep this from a finer grade.

168 1911 **MINT STATE-65.** Nearly full stars and corn. Pristine surfaces. Light gold, rose, and green toning. Choice.

169 1912 **MINT STATE-65.** Superb, blazing luster with just a hint of gold. Above average strike with full stars and corn and only trivial softness in the hair. A splendid example of the last, regular issue Philly V-nickel.

170 1912 **MINT STATE-63.** A very decent strike with nearly pristine surfaces, light toning and a few fly specks.

171 1912-D **MINT STATE-65.** Fully struck stars, hair and corn. Original, light and somewhat iridescent toning on both the obverse and reverse; heavier around the left obverse stars. Very attractive and a very scarce coin so nice. (PHOTO)

172 1912-S **MINT STATE-67.** Fully struck stars and hair. Nearly full detail on the left ear of corn on the reverse. Mostly brilliant, semi-prooflike surfaces with light rose toning about the stars and head. Probably a first strike. Specialists know the 1912-S, with only 238,000 minted, is a condition rarity, usually plagued by an indifferent to poor strike. This specimen is easily the finest to come on the market in quite a while. A very rare coin! (PHOTO)

EARLY DIMES

MERCURY DIMES

McIntire Numismatic Auctions use the following terms to describe the degree of fullness of the counter crossbands on the fasces.

FULL SPLIT BANDS — the finest strike and just what it implies. The bands are raised, fully separated and rounded. Worthy of the hefty premium assigned to this degree of strike & preservation.

SPLIT BANDS — Fully defined with a complete separation between the two crossbands. The bands may be partially rounded or uniformly flat. We have seen this referred to as flat split bands. For some dates, this is the best one will find.

If no mention of bands is made, then there is no great definition on the center crossbands of that particular coin.

230 1916 MINT STATE-65. Full Split Bands. Light gray toning.

231 1916-D GOOD-6. D/D repunched mint mark. Nearly full rims both sides. Cleaned.

While the attribution of "Proof" Columbian half dollars has been a matter of controversy, the Swiatek/Breen Encyclopedia of United States Silver and Gold Commemorative Coins details the great, and unauthorized, lengths of which Col. James W. Ellsworth went to have the first 100 coins struck as proofs. The depth of the fields and the detail lead us to conclude that this specimen was indeed minted as a Proof. 414 **1878 8 Feathers MINT STATE-63/65. Cameo Prooflike.** Incredibly deep mirrored obverse fields magnify the few scattered marks. This variety is not often found with this depth to the prooflike fields or this much contrast. Worth in our opinion about double the listed PL-63 price.

415 **1878 8 Feathers MINT STATE-63/63.** Frosty white luster.

416 **1878 7/8 Feathers MINT STATE-65/67. Cameo Prooflike.** An incredible dollar with deep black fields and fully frosted devices. 553 1885-CC **MINT STATE-65/63. Cameo Prooflike.** Highly reflective fields and frosty devices, very few marks or breaks in the frost. Dirty scrap welded on the breast feathers cause us to grade accordingly. A beauty. (PHOTO)

554 1885-CC **MINT STATE-63/65.** Fully struck. Frosty devices with semi-prooflike obverse fields and more mirrored reverse fields. Few marks in the obverse fields, but some breaks in the frost on the cheek. A very attractive coin.

555 1885-O **MINT STATE-65/65. Cameo Prooflike.** Fully struck. Deep mirrored fields. Light gray contrast on the obverse devices, frosty white on the reverse. Extremely clean obverse, especially the face. If you are seeking prooflike dollars with the absolute minimum of marks, this one is for you.

556 1885-O **MINT STATE-65/65. Cameo Prooflike.** Fully struck with a good contrast between the devices and deep, deep fields. A flashy coin.

557 1885-O **MINT STATE-65/67. Prooflike.** Fully struck. Highly reflective, but not deeply mirrored fields. Frosty white devices. A very desirable and attractive Morgan dollar.

558 1885-O **MINT STATE-65/65.** Fully struck with blazing luster and just a hint of prooflike fields.

559 1885-O **MINT STATE-67/65.** Frosty white devices against a satiny surface. Well struck and stunning.

560 1885-O **MINT STATE-65/65.** Fully struck and frosty white. Light, golden peripheral toning. Flashy.

561 1885-O **MINT STATE-63/67.** Fully struck and satiny. Subtle rainbow toned obverse with greenish blue turning to lavender to gold then fading into full mint luster at the far right. If you like toned coins, this is lovely. There are a few breaks in the toning but upon close examination they are just that and not serious marks in the coin's surface. Nevertheless, we will be conservative and grade the obverse MS-63.

562 1885-S **MINT STATE-65/65.** Light toning. Some contact marks on obverse surfaces and Liberty's cheek.

563 1886 **MINT STATE-65/65 Cameo Prooflike.** Fully struck with iridescent reverse toning of blue and rose about the periphery, gold at the center. Brilliant obverse with only a hint of rainbow toning around the edges. Very choice and beautiful.

564 1886 **MINT STATE-65/65. Cameo Prooflike.** Nearly a mate to the preceding lot, but with somewhat less intense toning. If you like beautiful toning plus quality, you'll like this one. (PHOTO)

565 1886 **MINT STATE-63/65. Cameo Prooflike.** Fully struck with very deep mirrored fields. Good frost on the devices. Very clean fields with just one scuff on the chin on the obverse. Attractive and above average.

566 1886 **MINT STATE-65/65.** Fully struck with shimmering satiny luster. Full denticles and no evidence of the often seen, heavy metal flow. The reverse is pristine. Choice with lots of eye appeal.

567 1886 **MINT STATE-65/65.** Fully struck and lustrous

568 1886-O **ALMOST UNCIRCULATED-55/55.** Very clean.

569 1886-S **MINT STATE-60/63.** Satiny luster. Very clean fields but a baggy cheek. A clean reverse but with slight weakness in the feathers.

570 1887 **MINT STATE-65/65. Prooflike.** Light contrast between the devices and moderately deep, reflective fields. Some softness in the hair above the ear and on the eagle's breast, but exceptionally mark free.

571 1887 **MINT STATE-65/65. Cameo Prooflike.** Fully struck. Blazing, mirrored fields. Light contrast exceptionally clean and scarcer than many realize as such.

572 1887 **MINT STATE-65/65. Cameo Prooflike.** Reflective fields and lightly contasting devices. Slight softness at the center. Very clean.

573 1887, 1888. 1887 **MINT STATE-63/63.** Full strike and very clean. Slightly cloudy toning of mostly gold with some iridescent on the obverse. Much lighter on the reverse. **1888 MINT STATE-63/63.** Nearly a full strike. Light rose obverse toning about the borders. Deeper, russet, rose and green toning on the reverse. An attractively toned pair. (TOTAL 2 PIECES)

574 1887-O **MINT STATE-65/63.** Extremely clean for this usually heavily marked date. Satiny white luster. Well struck but not full. The hair above the ear is one strand from being full. Feather detail is visible, although somewhat faint, on the reverse. All in all, way above average for this date.

575 1887-O **MINT STATE-63/63.** Well struck with a round breast, most feather detail, and lacking only one strand of hair from being full. Very clean, satiny white surfaces. Far above average in terms of strike and luster, and with far fewer marks than usually seen. Very decent and quite attractive.

576 1887-O **MINT STATE-63/63.** Well struck.

577 1887-S **MINT STATE-65/65.** A stunning example of this difficult date. Virtually bagmark free and fully struck, including fully detailed breast feathers. Blazing, shimmering luster. This combination of strike, luster and surface is almost unheard of for this date. (PHOTO)

578 1887-S **MINT STATE-60/60.** Some light contact marks on the surfaces.

579 1888 **MINT STATE-63/67. Cameo Prooflike.** Fully struck with deep, deep mirrored fields and frosty white devices. Only a few marks mar the obverse and is very nearly MS-65. Elusive this deeply mirrored. This stunning piece should realize close to the listed MS-65 PL Bid. (PHOTO)

580 1888 **MINT STATE-65/65.** Frosty white luster. An attractive specimen.

581 1888-O **MINT STATE-63/65. Cameo Prooflike.** Full hair and feather detail. Deep mirrored fields. Frosty devices. Scattered, light obverse marks but none severe. Would be called MS-65 by many. Very flashy.

582 1888-O **MINT STATE-63/65. Cameo Prooflike.** Incredible, deep, black, mirrored fields. Frosty devices. Full breast feathers. Extremely clean surfaces but the depth of the fields magnify every little mark. An eye catching coin.

583 1888-O **MINT STATE-63/65.** Fully struck hair and breast feathers. Frosty obverse. Semi-prooflike reverse highlighted by a rainbow crescent of blues and gold in the lower left. Attractive.

584 1888-O **MINT STATE-65/65.** Softly struck at the centers. Beautifully toned sea green, gold and magenta on the obverse. Satiny white reverse. Virtually mark free surfaces. Lots of eye appeal!

585 1888-S **MINT STATE-63/67. Prooflike.** Fully struck with blazing, virtually bagmark free reflective fields that for the most part lack the usual striations. While a few are visible on the obverse, the reverse is pristine. A light scuff on the cheek is all that keeps this from virtual perfection. Way above average for this date. (PHOTO)

586 1888-S **MINT STATE-60/65.** Fully struck with flashy, brilliant luster. Light but numerous, obverse marks. A nearly pristine, semi prooflike reverse. Definitely new and not unattractive.

587 1888-S **MINT STATE-63/65.** Lustrous surfaces under light toning on obverse.

588 1888-S **MINT STATE-63/63.** Well struck from repolished dies. Brilliant luster. No serious bagmarks or scuffs, just a few light ones. Nearly choice.

589 1888-S **MINT STATE-63/63.** Lustrous surfaces.

590 1888-S **MINT STATE-60/63.** Light toning around edges.

591 1889 **MINT STATE-65/65.** Well struck and very clean. Blazing, nearly semi-prooflike surfaces. Some slight softness in the hair and wreath. Good breast feather detail. A splendid, above average example of this tougher dollar.

592 1889 **MINT STATE-63/67.** Fully struck with satiny luster and pristine fields. Two small scuffs on the cheek. Just a hint of intense gold and red toning on the reverse. Way above average for this date. (PHOTO)

593 1889 **MINT STATE-63/63.** Nearly a gem. Frosty white luster. Well struck.

594 1889-O **MINT STATE-63/67.** Absolutely [illegible] with frosty devices contrasting with frosty fields. Full hair and breast feather detail. Very clean surfaces and were it not for about three tiny ticks on the cheek, this coin would be amazing. A very attractive and typical example of this often weakly struck, heavily mintmark date. (PHOTO)

595 1889-O **MINT STATE-63/63.** Excellent luster. Some softness of strike in the center.

596 1889-S **MINT STATE-63/65. Prooflike.** Fully struck with highly reflective, but not too deep fields. Little contrast. A very flashy, very clean coin with only a few light obverse tick marks. Scarce this nice.

597 1889-S **MINT STATE-63/65.** White luster and fully struck. Very choice.

598 1889-S **MINT STATE-60/63.** No heavy marks, just a few light ones.

599 1890 **MINT STATE-65/65.** Nearly fully struck, lacking only half a strand of hair above the ear. Excellent shimmering white luster with only the slightest dimpling from excessive metal flow. Extremely clean surfaces. Above average and very attractive.

600 1890, 1890, 1890. All **MINT STATE-63/65.** All as fully struck as this date ever is. All have hair detail above the ear and full breast feathers. All have satiny luster and some, but not an excessive amount of the dimpling from excessive metal flow. The 1890 is probably the most elusive, high mintage date in top condition. Here are three very pleasing coins that are close to being as nice as this date comes. (TOTAL 3 PIECES)

601 1890-CC **MINT STATE-65/65. Cameo Prooflike.** Fully struck with extremely deep, nearly black, brushed fields. Moderate frost on the devices. Nearly mark free and uncommon as such. A very choice piece. (PHOTO)

602 1890-CC **MINT STATE-65/63.** Fully struck and extremely clean. Original, golden gray toning with pale green and rose in the borders. Scarce this clean.

603 1890-CC **MINT STATE-63/63.** Very attractive and select. One scuff on the eagle's breast holds this MS-63.

Morgan Dollars (Cont'd.)

604 1890-O **MINT STATE-63/65. Cameo Prooflike.** Nearly fully struck, with full breast feathers, but lacking one strand of hair above the ear. Fairly deep, highly reflective surfaces. Light obverse contrast, deeper on the reverse. Very few marks detract from the obverse. If there was another number to denote a nearly choice coin, we would use it on this one. A prize for the collector who does not want to pay upwards of a thousand dollars and yet does not want a scuffy coin.

605 1890-O **MINT STATE-65/65.** Fully struck with frosty white luster and very clean surfaces. A decent 1890-O!

606 1890-O **MINT STATE-63/65.** Frosty white luster. Nearly fully struck with only slight softness in the hair above the ear. The breast is fully rounded with all feathers visible. Light minor scattered obverse marks; a pristine reverse.

607 1890-O **MINT STATE-63/63.** Pristine, satiny surfaces but weakly struck. Lovely, mottled gold and blue toning creeping in from the edges but leaving the centers bright.

608 1890-O **MINT STATE-63/63.** Lustrous and well struck with nearly full breast feather detail. A scuff mark in the field keeps this one from a higher grade.

609 1890-S **MINT STATE-65/67. Prooflike.** Fully struck with highly reflective fields. Some light device contrast. Very choice with only one minor reeding mark and scuff on the cheekbone. (PHOTO)

610 1890-S **MINT STATE-65/65. Cameo Prooflike.** Extremely deep, almost black, mirrored fields. Light contrast. Some striations and a few breaks in the obverse frost are visible. Another flashy prooflike dollar.

611 1890-S **MINT STATE-60/60.** Toned obverse. Well struck.

612 1891 **MINT STATE-63/65.** Nearly fully struck and very clean. Full, frosty white luster. Above average for this date and more attractive than most. One minor scuff below the eye is what causes us to describe the obverse as we do. Very attractive in all respects.

613 1891 **MINT STATE-63/63.** Nearly fully struck with good luster.

614 1891, 1891. **1891 MINT STATE-63/65;** and **1891 MINT STATE-63/65.** (TOTAL 2 PIECES)

615 1891-CC **MINT STATE-65/65. Prooflike.** Fully prooflike with deep, mirrored fields and light device contrast. Unusually mark free for this date. Full breast feathers and only a hint of softness above the ear. A scarce prooflike date. (PHOTO)

616 1891-CC **ALMOST UNCIRCULATED-55.** Evidence of slight circulation.

617 1891-S **MINT STATE-60/60.** Rim bump on reverse.

618 1892 **MINT STATE-63/63.** Highly lustrous, semi-prooflike fields. Lightly frosted devices, especially on the obverse. Slight softness in the hair above the ear. No serious or heavy marks, just a few breaks in the frost. A very attractive example of this low mintage, scarce dollar.

619 1892-CC **MINT STATE-63/65.** Well struck with frosty white luster. Clean fields. Light marks on the cheek. A nearly pristine reverse. This date was not in the great Treasury hoard of Carson City Dollars.

620 1892-CC **MINT STATE-63/63.** Well struck with frosty white luster. Clean fields but a few marks on the cheek.

621 1892-CC **MINT STATE-63/63.** Fully struck with satiny fields and frosty devices. Choice in all respects but for a minor scuff on the cheek.

622 1892-CC **MINT STATE-63/63.** An excellent strike and very clean surfaces. Very deep heavy violet toning.

623 1892-CC **EXTREMELY FINE-45.** Lightly worn, now with some toning forming in the letters and stars. Original.

624 1892-O **MINT STATE-65/63.** Highly reflective, semi-prooflike surfaces with some contrast between the devices and fields. Good obverse hair detail with only one strand being ill-defined. Only a minimum of light obverse marks, as the grade suggests. The eagle's breast shows some but not all of the feather detail. Scattered light marks in the reverse fields are visible. A prize for the buyer who wants an attractive, above average piece that will not cost thousands. (PHOTO)

Morgan Dollars (Cont'd.)

625 1892-O **MINT STATE-63/65.** Fully struck with full hair and breast feather detail. Full frosty mint luster. Minimal marks in the obverse fields. A few light marks on the head. The reverse is choice and nearly mark free. With ANACS certification and grading. #E 2560-T (PHOTO)

626 1892-O **MINT STATE-63/63.** Superb, full strike. Full hair detail above the ear and full, clearly defined breast feathers. Excellent, satiny luster. The 1892-O is notorious for consistently being poorly struck — sometimes with no ear at all. The coin offered here in addition to being fully struck has only minor, light marks. While not the caliber of the Gem we sold in our Missouri Sale at $2530.00, this is still among the best struck specimens this cataloger has seen. (PHOTO)

627 1892-O **MINT STATE-60/63.** Well struck with some softness in center above the ear.

628 1892-S **VERY FINE-30.** Worn but undamaged.

629 1892-S, 1893. **1892-S** is **VERY FINE-20** and the **1893** is **ALMOST UNCIRCULATED-50.** (TOTAL 2 PIECES)

630 1893-CC **EXTREMELY FINE-40.** Uncleaned and original.

631 1893-O **VERY FINE-30.** Worn but undamaged and original. Scarce.

632 1893-S **ALMOST UNCIRCULATED-50.** Well struck with good luster beneath light, somewhat mottled toning. No detracting bagmarks. A lovely high grade example of this rare date. With ANACS certification #[illegible] (PHOTO)

633 1893-S **GOOD-4.** Rare date. Full strong date with legible. Rims are solid.

634 1894-O, 1895-O. The 1894-O is **EXTREMELY FINE-45** and has been cleaned and cleaned. The 1895-O is **EXTREMELY FINE-45** and has been cleaned, dipped and polished. Lovely. (TOTAL 2 PIECES)

635 1894-S **MINT STATE-65/65.** Very well struck with excellent, almost semi-prooflike luster. Attractive light iridescent gold, rose and teal green toning is forming around the date and through the stars. The reverse is toned a slightly more uniform russet. Extremely clean and without the numerous small dropoff nicks marks that so often plague this date. A scarce coin in its own right but even more desirable as the only reasonably obtainable dollar dated 1894. This is a conservatively graded beauty. (PHOTO)

636 1894-S **EXTREMELY FINE-45.** Well struck with some remaining luster. Light original toning.

637 1895-O **EXTREMELY FINE-45.** Dull gray toning.

638 1895-O **EXTREMELY FINE-40.** Original gray color.

639 1895-O **VERY FINE-35.** Lightly circulated but undamaged and original.

640 1896 **MINT STATE-65/67. Cameo Prooflike.** Deep, deep, nearly black, mirrored fields. Lightly frosted devices. Unbelievably clean surfaces. Simply superb! (PHOTO)

641 1896 **MINT STATE-63/65. Cameo Prooflike.** Deep fields with good contrast but a few marks on the cheek determine the grade. The fields are exceptionally clean.

642 1896 **MINT STATE-63/65 Prooflike.** Extremely deep fields. Slight device contrast. Overall MS-65 quality were it not for the slightest of marks on the cheek/neck. This piece should be worth about half of MS-65 P/L but

643 1896 **MINT STATE-65/67.** Somewhat white luster. Virtually bagmark free. A blazing gem!

644 1896 **MINT STATE-63/65.** Well struck.

645 1896-S **MINT STATE-63/63.** Very well struck; lacking only one strand of hair above the ear from being full. Fully rounded breast with all feather detail. Fully struck wreath. Excellent, bright luster. No heavy marks or scuffs, just scattered light ticks. An attractive example of this scarce Morgan. (PHOTO)

646 1896-S **EXTREMELY FINE-40.** Original.

647 1897 **MINT STATE-65/67.** Fully struck. Satiny white luster. A very superior example of this not so common date.

648 1897 **MINT STATE-65/65.** Fully struck and extremely clean. Frosty but somewhat subdued luster. Just a hint of light gold toning on the obverse.

649 1897 **MINT STATE-65/65.** Lustrous and fully struck.

650 1897 **MINT STATE-60/63.** Hairlines on obverse.

651 1897-S **MINT STATE-63/65.** Fully struck with frosty white luster. Very clean and nearly a full MS-65.

652 1897-S **MINT STATE-63/65.** Full strike.

653 1897-S **MINT STATE-60/60.**

654 1898 **MINT STATE-65/67. Prooflike.** Deeply mirrored fields. Light device contrast. Excellent reflectiveness. Uncommon as such.

655 1898 **MINT STATE-63/65.** Well struck with light russet toning that is heavier and more iridescent near the borders. Deeper toned reverse.

656 1898-O **MINT STATE-65/67. Cameo Prooflike.** Fully struck. Deep, deep mirrored fields. Lightly frosted devices.

657 1898-O **MINT STATE-63/67. Cameo Prooflike.** Fully struck. Deep black fields, frosty devices with a super clean cheek, only a reeding mark in the field behind the hair and the remains of a fingerprint in the stars to the right of the date keeps this as MS-63. Flashy hardly is adquate to describe this coin.

658 1898-O **MINT STATE-63/67. Cameo Prooflike.** Deep mirrored fields, frosty white devices. A few breaks in the frost on the cheek but otherwise remarkably mark free. Another flashy coin.

659 1898-O **MINT STATE-65/65.** Semi-prooflike. A few light scattered marks but still quite desirable.

660 1898-O **MINT STATE-65/67.** Full hair and feather detail. Satiny white luster. Virtually mark free. Very choice.

661 1898-O **MINT STATE-65/67.** Satiny surfaces with a full strike

662 1898-O **MINT STATE-65/67.** Fully struck with satiny white brilliance. A gorgeous, pristine cheek. Top quality.

663 1898-O **MINT STATE-65/65.** Well struck with full feather detail. Satiny white luster.

664 1898-S **MINT STATE-65/65. Cameo Prooflike.** Uncommon strike with full feather detail and lacking only half a strand from full hair. Extremely deep, black mirrored fields. Frosty white devices. Virtually no marks in the fields or on the devices. Light lavender peripheral toning beginning to form. A very scarce prooflike dollar and one that will satisfy the condition fanatic. (PHOTO)

665 1899 **MINT STATE-65/67. Prooflike.** Highly reflective mirrored fields. Ever so slight frost on the devices. Virtually mark free obverse, stunning reverse. Scarce in prooflike, especially so this pristine. (PHOTO)

666 1899 **ALMOST UNCIRCULATED-55.** Brilliant but with light circulation slide marks.

667 1899-O **MINT STATE-65/65. Cameo Prooflike.** Full hair and feather detail. Deep black fields, frosty white devices. Lots of eye appeal.

668 1899-O Micro-O **MINT STATE-63/65. Cameo Prooflike.** VAM-4, with the micro-O mintmark tilted right. This piece is the **only known** mint state example of the micro-O variety, of which Van Allen-Mallis identified three die pairs. This piece has been examined by both Van Allen and Mallis, as well as many of the major dollar dealers in the country. All confirm the apparent uniqueness of this piece. The coin is fully struck with highly lustrous, reflective fields. The devices are lightly frosted. Liberty's cheek does have a few light marks upon it, but they are minor. In fact, not too recently this coin would have been described as MS-65/67. Truly in a remarkable state of preservation.(PHOTO)

Morgan Dollars (Cont'd.)

669 1899-O **MINT STATE-63/67** Exceptional detail. Pleasing satin prooflike surfaces. Lightly toned obverse.

670 1899-O **MINT STATE-65/65.** Well struck with full feather detail. Frosty luster with light orange-rose obverse toning.

671 1899-O, 1899-O Both are **MINT STATE-65/65.** (TOTAL 2 PIECES)

672 1899-O, 1899-O One is **MINT STATE-63/65** and the other one is **MINT STATE-63/60.** (TOTAL 2 PIECES)

673 1899-S **MINT STATE-65/65. Prooflike.** Highly reflective brilliant fields. Full feather detail, but lacking one strand of hair above the ear. Virtually mark free. (PHOTO)

674 1899-S **ALMOST UNCIRCULATED-50.** Lots of remaining luster. Light iridescent toning.

675 1900 **MINT STATE-65/65. Cameo Prooflike.** Fully struck. Fairly deeply mirrored fields. Lightly, but definitely frosted, devices. A few scattered marks on the cheek and a bagmark in the reverse field above the motto are mentioned for accuracy. A few light die polishing marks are available. A very scarce prooflike dollar and one of the cataloger's favorite dates.

676 1900 **MINT STATE-65/65. Prooflike.** Gray brilliant, but deeply mirrored, fields now with a hint of light gold toning. Some softness of strike especially in the reverse wreath. Pristine surfaces but with magnification there appears to be a few light hairlines. They may only be a die polishing striations, however. Very elusive in prooflike.

677 1900, 1900. Both are **MINT STATE-63/63.** (TOTAL 2 PIECES)

678 1900-O **MINT STATE-65/65. Prooflike.** Full breast feather detail, nearly full hair. Reflective fields but not especially deep. Flashy and definitely above average.

679 1900-O **MINT STATE-63/65. Prooflike.** Fully struck with highly reflective fields. Little obverse contrast, more so on the reverse. A very attractive example of a difficult to find prooflike date.

680 1900-O **MINT STATE-65/65.** Fully struck with very clean semi-prooflike fields. Lovely light toning with iridescent shades of rose, blue and gold about the peripheries.

681 1900-O **MINT STATE-67/67** Very unique. Shimmering white satin prooflike surfaces. Extremely difficult to find this nice and worth a premium bid. (PHOTO)

682 1900-O **MINT STATE-65/65.** Well struck with prooflike fields and frosty luster. A few light marks on the obverse are mentioned for accuracy.

683 1900-O **MINT STATE-65/65.** Brilliant and fully struck.

684 1900-S **MINT STATE-63/63. Prooflike.** Well struck with reflective but not deep fields. A few scattered light marks.

685 1900-S **MINT STATE-63/63. Prooflike.** Well struck but with no contrast. Striations on the reverse.

686 1900-S **MINT STATE-63/65.** Well struck with good breast feather detail and nearly full hair. Frosty white luster and very clean surfaces. Nearly choices but for some obverse striations and a light scuff along the cheek bone. Attractive.

687 1900-S **MINT STATE-63/63.** Very clean surfaces. Excellent luster with just a hint of golden toning. Soft at the centers and with some striations, as is often seen. Hence our MS-63 designation, although this is far more attractive than a piece that could be given the same numerical grade by virtue of being better struck but more heavily marked.

688 1900-S **MINT STATE-60/60.** A few slide marks.

689 1901 **EXTREMELY FINE-45.** Good remaining luster. Evidence of metal flow from incorrect striking pressure.

690 1901-O **MINT STATE-65/63. Prooflike.** Well struck. Very deeply mirrored fields. Lightly frosted devices. Very few light marks. Slight reverse cloudiness. Very scarce in true prooflike condition, especially when well struck.

691 1901-O **MINT STATE-63/65. Prooflike.** Fully struck. Blazing, highly reflective fields especially on the reverse. Virtually no contrast. Very clean with only the lightest stacking marks visible on the obverse. Quite a flashy coin.

692 1901-O **MINT STATE-63/63. Prooflike.** Well struck with full feathers but slight softness in the hair above the ear. Brilliant prooflike obverse, slightly cameoed reverse.

693 1901-O **MINT STATE-67/67** Very unique. Frosty white. Lightly toned with just a hint of orange-tan. Absolutely marvelous. (PHOTO)

Morgan Dollars (Cont'd.)

694 1901-O **MINT STATE-65/65.** Very clean and nearly fully struck with full breast feather detail but lacking one strand of hair. Satiny white luster.

695 1901-S **MINT STATE-65/63.** Extremely clean surfaces, especially the obverse. No striations but some weakness in the centers. One bagmark on the eagle's breast. Good, satiny luster. Just a hint of light golden toning on the reverse. (PHOTO)

696 1902 **MINT STATE-65/65.Cameo Prooflike.** A condition rarity! 1902 dollars typically exhibit subdued, dull surfaces. Even the prooflikes are usually gray brilliant with no contrast and are generally unattractive. This coin, however, is bright and prooflike with considerable contrast between devices and fields. Rare as such. The reverse does exhibit evidence of heavily polished dies and there is a small cut on the eagle's breast. This coin is a condition rarity of the first order. The comments on this coin in our Arkansas Sale (July 1981) as Lot #942 are still applicable. "How difficult it is today to locate quality this nice." It realized $1100.00 then, and will no doubt bring much more now. (PHOTO)

697 1902 **MINT STATE-65/67.** Well struck with just a hint of softness in the hair above the ear. Good breast feather detail for this C⁴ reverse. Above average luster with just a hint of golden peripheral toning. Amazingly pristine, nearly mark-free surfaces. A gem in anybody's book. (PHOTO)

698 1902 **MINT STATE-63/63.** Well struck with full hair and only slight softness in the breast feathers. Satiny luster. Very clean and nearly MS-65 with only very light marks visible.

699 1902 **MINT STATE-63/63.** Well struck with olive and brown toning.

700 1902-O **MINT STATE-65/65.** A superb, strong strike with full breast feathers and within half a hair strand of full hair detail above the ear. Brilliant, satiny luster. Pristine surfaces. Very difficult to locate this nice and a no questions asked MS-65. (PHOTO)

701 1902-O **MINT STATE-65/65.** Frosty white luster. Extremely clean, pristine surfaces. Only light center softness.

702 1902-O **MINT STATE-63/65.** Well struck with nearly full hair. Frosty white luster.

703 1902-O **MINT STATE-65/65.** Boldly struck.

704 1902-O **MINT STATE-63/63.** Mottled toning.

705 1902-O; 1902-O. **1902-O MINT STATE-63/67.** Fully struck and satiny. No serious or detracting marks, just a few stacking marks on the obverse. Pristine reverse. And, **1902-O MINT STATE-63/65.** Semi-prooflike fields. Well struck but not quite full. Blazing luster. (TOTAL 2 PIECES)

706 1902-S **MINT STATE-65/65.** Frosty white, above average luster. Pristine surfaces, marred only by one reeding mark on Liberty's nose. Slightly soft at the center. (PHOTO)

707 1902-S **MINT STATE-63/65.** Frosty obverse, satiny reverse. Slight softness in the hair. Above average strike on the reverse. No severe obverse marks just a few light ticks. Pristine, but striated reverse.

708 1902-S **MINT STATE-63/63.** Well struck although not quite full. Frosty brilliance and only light scattered marks.

709 1902-S **MINT STATE-63/63.** Frosty white and quite clean, but with numerous striations, especially on the reverse. No severe marks and frankly, quite attractive.

710 1902-S **MINT STATE-63/63.** Frosty luster. Some center softness. No severe marks.

711 1902-S **MINT STATE-63/63.** Fully struck and frosty. One light scuff on the cheek and a few tick marks on the breast away from choice.

Morgan Dollars (Cont'd.)

712 1902-S **MINT STATE-60/63.** Nearly fully struck with frosty white luster. Some die spot ticks on the reverse but none severe.

713 1902-S **MINT STATE-60/60.** Frosty. Somewhat dingy but not unattractive.

714 1902-S **EXTREMELY FINE-45.** Abundant remaining luster. Although by no means common in mint state, this date may be scarcer in circulated grade both than in uncirculated.

715 1903 **MINT STATE-65/65. Prooflike.** Fully struck with deep brilliant fields, especially on the obverse. No contrast. Attractive and not the usually seen dull gray. Just a hint of toning in the denticles enchances the overall appearance. A very scarce prooflike dollar. (PHOTO)

716 1903 **MINT STATE-65/65.** Fully struck with highly reflective, semi-prooflike surfaces. Pristine and very flashy.

717 1903 **MINT STATE-65/65.** Blazing mint luster for this date. Fully struck hair detail and eagle's breast feathers. A nice dollar! (PHOTO)

718 1903 **MINT STATE-65/65.** Fully struck with pristine surfaces. Gorgeous, original blue brown and rose toning on the obverse, lighter and more iridescent on the reverse. One tiny planchet flaw on the cheek is disguised by the toning. Definitely for the toning affectionado.

719 1903 **MINT STATE-65/65.** Fully struck. Very clean fields and a clean cheek. One bagmark on the neck of Liberty. Light toning over frosty, somewhat subdued luster.

720 1903-O **MINT STATE-63/65.** Fully struck with blazing luster. Just a few light obverse scuffs, no heavy cuts or marks.

721 1903 **MINT STATE-63/63.** Toned.

722 1903, 1903 Both are **MINT STATE-60/60.** (TOTAL 2 PIECES)

723 1903-O **MINT STATE-63/65 Prooflike.** Nearly prooflike with full hair detail. Blazing, frosty, contrast, reflective fields. Very, very few marks. A choice example of this premier "King of Morgan dollars." (PHOTO)

724 1903-S Micro-s **ALMOST UNCIRCULATED-50/50.** Listed as VAM-2, this variety occurred when the S punch used for Barber Quarters was inadvertently used on a dollar die. Van Allen Mallis assigns this an Importance-4, Rarity-4 rating. Miller calls the variety rare in EF and higher grade. A scarce date in its own right. This is an unusual and rare variety.

725 1903-S **EXTREMELY FINE-40.** Original. A small cut by eagle's neck.

726 1903-S **EXTREMELY FINE-40.** Golden toning.

727 1904 **MINT STATE-65/65.** Subdued luster. Better than average strike but lacking full hair detail.

728 1904 **ALMOST UNCIRCULATED-55.** A borderline uncirculated piece.

729 1904-O **MINT STATE-63/65. Cameo Prooflike.** Full hair and feather detail. Extremely deep, fully mirrored surfaces. Very attractive with few marks. Worth a premium because of its depth and strike.

730 1904-O **MINT STATE-65/65. Prooflike.** Nearly fully struck with full hair detail and only the slightest weakness in the feathers. Deep, fully mirrored fields. Lightly frosted devices. Just a hint of light toning. Virtually mark free. Tougher to find this well struck and attractive than many realize.

731 1904-O **MINT STATE-65/65.** Blazing white semi-prooflike obverse, deeper, somewhat cameoed reverse. Virtually mark free. Slight center softness, but an eye catching coin.

732 1904-O **MINT STATE-65/65.** Semi-prooflike.

733 1904-O **MINT STATE-63/67.** Eye appealing, light golden toned obverse. Mostly brilliant reverse with areas of mottled roses and blues. Slightly soft in the hair above the ear. Otherwise a gem!

734 1904-O **MINT STATE-63/63.** Light toning.

735 1904-S **ALMOST UNCIRCULATED-50.** Very rare to mint state but especially scarce to choice. A key to the entire series. (PHOTO)

736 1904-S **ALMOST UNCIRCULATED-50.** Toned.

737 1904-S **EXTREMELY FINE-45.** Some claims to AU with lots of remaining luster. Original and attractive. Scarce as such.

738 1904-S **EXTREMELY FINE-40.** Original toning. Some luster. An attractive circulated example of this rare date.

739 1904-S **VERY FINE-30.** Original and undamaged.

740 1921 **MINT STATE-65/65. Prooflike.** Obverse is semi-prooflike with golden toning. Deep prooflike reverse. Fully struck specimen.

741 1921 **MINT STATE-65/65. Cameo Prooflike.** An amazing, fully struck piece with frosty white devices and reflective surfaces. Not too deep but very definitely prooflike. A superior example of this often mushy, problem plagued, common date.

742 1921-D **MINT STATE-65/65.** Fully struck with excellent, frosty, coruscating luster. Nearly pristine with none of the light hairlines on the cheek that are usually seen on the 1921-D and 1921-S Morgans. Very choice and attractive. (PHOTO)

743 1921-D **MINT STATE-63/63.** Soft strike.

744 1921-S **MINT STATE-65/65. Cameo Prooflike.** Fully struck, including the hair, eagle's breast and third cluster of leaves in the right wreath. Superb, highly reflective, semi-prooflike fields. Frosty contrasting devices. Simply stunning after looking at hundreds of 1921-S's trying to find a gem. (PHOTO)

745 1921-S **MINT STATE-63/63.** Well but not fully struck.

PEACE DOLLARS

747 1921 **MINT STATE-65/65.** Typical softness in the center but with superb luster and pristine surfaces. Light, uniform, gold obverse toning. Slightly deeper on the reverse. Very attractive. (PHOTO)

748 1921 **MINT STATE-65/65.** Well struck with all hair strands defined although not full. Pristine obverse with one microscopic hairline on the jaw mentioned for accuracy. Nearly a fully struck and pristine reverse. Soft, satiny white luster.

749 1921 **MINT STATE-60/65.** Reverse has been cleaned.

750 1922 **MINT STATE-65/65.** Superb color.

751 1922-D **MINT STATE-65/63.** Superb, frosty luster. Pristine cheek. No serious reverse marks, just a few breaks in the frost on the eagle.

752 1922-D **MINT STATE-63/65. Semi-prooflike.** Fully struck, matte-like, reflective surfaces. No obverse die cracks and a frosty cheek. Both are characteristics of a new die, which also probably accounts for the prooflike appearance. The reverse is fully struck and is even more reflective than the obverse. In his, AN ANALYSIS OF MORGAN AND PEACE DOLLARS, Wayne Miller comments that while he has never seen a full cameo, deep mirror prooflike Peace dollar he has seen several dates, including the 1922-D with reflective surfaces. He terms them all as "very rare". A choice and unusual Peace dollar. (PHOTO)

753 1922-D **MINT STATE-63/63.** Absolutely fully struck. Frosty white luster. No serious marks, just a few breaks in the frost.

754 1922-D **MINT STATE-63/63.** Well struck. Mostly frosty with intense rainbow toning about the peripheries.

755 1922-D **MINT STATE-63/63.** ANACS certified and graded #E-1764-S.

756 1922-D **MINT STATE-63/63.** ANACS certified and graded #E-1767-S.

END OF FIRST SESSION

Second Session

Saturday, Jan. 29, 7:00 p.m. (Lots 980-2028)

ONE DOLLAR GOLD

980 1854 Type 2. VERY FINE-30. Original and uncleaned but with three small dents in the obverse field.

981 1855 Type 2. FINE-12. Slightly bent.

2X

982 1855-O EXTREMELY FINE-45. Well struck with a full date. The last O mint dollar and the only O mint variety-2 dollar. Two rim marks on obverse. (PHOTO)

983 1855-O Type 2. EXTREMELY FINE-45. Original and undamaged. Extremely well struck for a Type 2 dollar. The last "O" Mint dollar and the only New Orleans Type 2 issue. Low, 55,000 mintage. This specimen is well above the typical very fine average reported by Akers.

2X

984 1861 Type 3. MINT STATE-65. Full shimmering, frosty mint luster with no hint of prooflike surfaces. Fully struck from severely clashed dies. In fact the outline of the wreath is clearly seen in the obverse fields and similarly, the head is outline within the reverse wreath. True choice unciruclated gold dollars are not often seen. (PHOTO)

TWO AND ONE HALF DOLLAR GOLD

985 1898 ALMOST UNCIRCULATED-50. A scarcer date with only 24,000 minted. Akers claims the 1898 is — "actually more rare as a date than the popular 1911-D".

986 1899 MINT STATE-63. Full prooflike surfaces. Coppery-gold color. Wide, flat rims. A few hairlines and tiny rim nicks at 12:00 obverse are mentioned for accuracy. An unusual example of this moderately scarce date. Just 27,200 minted. (PHOTO)

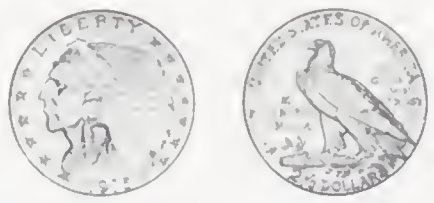
987 1907 MINT STATE-63. Some light hairlines.

988 1907 MINT STATE-60.

989 1907 ALMOST UNCIRCULATED-55. Just a touch of friction on the high points.

990 1909 MINT STATE-65. Lovely, rich yellow gold. Satiny surfaces and very choice in every respect. Although the $2.50 Indian series contains no real 'impossible' dates — even the 1911-D is available for price — the early dates seem to be the most difficult to locate in choice condition. (PHOTO)

991 1914 MINT STATE-63. Brilliant yellow gold with a minimum of light marks on the fields. With the incuse design of both the Indian Head quarter eagles and half eagles, the fields are the highest point of the coin and thus very suseptible to abbrasions. Next to the 1911-D, the 1914 is the other 'key' of the short Indian Head quarter eagle series. (PHOTO)



992 1915 MINT STATE-65. Fully struck and frosty. Gorgeous, rose gold. Pristine surfaces. Indian Head gold coins, because of the incuse design, are undoubtedly the most difficult to locate in gem condition of all the modern series. (PHOTO)

THREE DOLLAR GOLD

993 1855 EXTREMELY FINE-40. Cleaned obverse; whizzed reverse.

994 1857 GOOD-6. Well worn, needless to say, but not damaged.

995 1861 VERY GOOD-8. Four mounting marks are evident. Many nicks and scattered contact marks appear on both sides.

NOW ACCEPTING CONSIGNMENTS FOR OUR NEXT AUCTION

996 1878 **ALMOST UNCIRCULATED-50.** Prooflike surfaces remain in the protected areas. (PHOTO)

FIVE DOLLAR GOLD

997 1803, 3 over 2. Capped Bust Heraldic Eagle **MINT STATE-63.** Full mint luster with just a hint of coppery toning. Extremely well struck with full radial lines in the stars and full details in the hair, including the centering hair on the obverse. The reverse is full including the eagle's head and breast, despite a die break that runs from the rim above E in STATES diagonally through the design to the rim of the U in UNITED. Light hairlines are present, as is often the case with these early gold coin. A very nice example of a very scarce coin. (PHOTO)

998 1834 NO MOTTO, Plain 4, Classic Head **EXTREMELY FINE-40.** An attractive, original example of this short lived design

175.00

TEN DOLLAR GOLD

999 1799 Large Stars **ALMOST UNCIRCULATED-55.** Nearly mint state. A superb full strike of a rich copper gold. Perfectly centered and without planchet defects. During the early years of the U.S. Mint, the ten dollar denomination was the highest value produced and were the American monetary standard. Early eagles were "working" coins and saw extensive use in commerce and banking, thus virtually all saw circulation. Choice pieces such as this one are rare. (PHOTO)

1000 1894 **MINT STATE-60.** Original rose gold color. No severe marks.

1001 1907 Liberty Head **MINT STATE-63.** Original yellow gold color. (PHOTO)

HALF CENTS

1002 1804 **FINE 15.** Impaired, prooflike surfaces.

1003 1806 **ALMOST UNCIRCULATED 50.** Lustrous, prooflike brown color. Good centered.

1004 1834 **MINT STATE-63.** Sharply struck. Red and brown color. The color and surfaces of a perfect coin. (PHOTO)

1005 1851 **EXTREMELY FINE-40.** Olive and brown color.

1006 1855 **MINT STATE-60.** Chocolate brown with some red surfaces. Well struck, with most star centers showing. (PHOTO)

1007 1855 **MINT STATE-60.** Lustrous brown with traces of red in the protected areas. Weakly struck about the periphery.

1008 1857 **MINT STATE-60.** Rich, medium brown color. No spots. Well struck with only slight softness in stars 4 through 7 and in the wreath. Two minute obverse rim bumps. Last year of issue and scarce. Only 35,180 struck. (PHOTO)

LARGE CENTS

1009 1794 Head of 1795. **VERY FINE-20/20.** Prooflike, late brown planchet. Several shield and berries, the most severe being at 4:00 obverse. ANACS certified and graded. (PHOTO)

1018 1842 **EXTREMELY FINE-45.** Sharply struck with all star centers showing. One carbon spot on reverse.

1019 1850 **MINT STATE-63.** Fully struck in the center with the characteristic weakness in the denticles. Somewhat porous planchet. Good color with faded red at the center, olive around the borders.

1021 1853 **ALMOST UNCIRCULATED-50.** Red and brown. Full hair and wreath detail.

1022 1853 **EXTREMELY FINE-40.** Dark brown.

1023 1854 **MINT STATE-63/60.** Glossy brown with traces of steely iridescence. Well struck with full denticles and stars. ANACS certified and graded, #E-7454-X. (PHOTO)

1685 1886-S MINT STATE-65/65. Cameo prooflike. An incredible, razor sharp full strike. Highly reflective fields with lightly contrasted obverse devices and much frostier reverse contrast. Light, somewhat mottled, rose-gold to brown obverse toning shadows blazing mint luster. Light gold peripheral toning creates a stunning halo effect and highlights the heavly frosted wreath and eagle. This dollar has it all; strike, luster, surfaces, and eye appeal. (PHOTO)

In fact if you covered the 'O' mint mark, even a dollar specialist would likely identify it as a product of the San Francisco mint. Complimenting the far above average strike are the deep, deep, almost black fields and frosty white devices. As our grade indicates there are very few marks to detract from the overall appearance of this amazing New Orleans mint dollar. Very, very scarce. (PHOTO)

1693 1887-O MINT STATE-63/65. Fully struck with excellent luster. A few light obverse marks, but fewer than normal. VAM-2. The entire date is doubled to the right with the 1 doubled and the 7 triple punched and visible to the eye. One of the largest known shifts and I-5, R-4.
